ABOUT ME

I am a student who loves the world of programming and enjoys learning new skills and technologies. I have a good relationship with my classmates and I adapt well to working in a team. I am disciplined, self-motivated, and able to manage my time effectively. I always seek to improve my work and deliver high-quality results.
.

WORK EXPERIENCE

Worked on several personal projects, which have allowed me to acquire knowledge and skills in different languages and technologies. Thanks to them, I have enhanced my practical abilities and gained more confidence to face challenges of various kinds.

EDUCATION

2020 to present

University of Informatic Sciencie of Cuba

INTERESTS

To have the opportunity to work in a professional and friendly work environment.

Opportunities that allow me to improve my development skills and grow as a professional.
